

LocalWeatherLightFetcher

```
classDiagram
    class LocalWeatherLightFetcher
    class LocalFetcher
    class PesudoLocalFetcher
    LocalWeatherLightFetcher <|-- LocalFetcher
    LocalWeatherLightFetcher <|-- PesudoLocalFetcher
```

The diagram illustrates a class hierarchy. At the top is the 'LocalWeatherLightFetcher' class. Below it are two subclasses: 'LocalFetcher' on the left and 'PesudoLocalFetcher' on the right. A horizontal line connects the two subclasses, with a vertical line and an upward-pointing arrow from the center of this line to the bottom of the 'LocalWeatherLightFetcher' box, indicating that both subclasses inherit from the superclass.

LocalFetcher
